2023 PRODUCT GUIDE

CORN

74 – 104 DAY CORN. 100% PROVEN TO PERFORM WHERE YOU FARM.

Some see just a bag of seed corn.
We see **80,000 opportunities** to raise more bushels.

22C74 RR2RELATIVE
MATURITY**74**
DAY

- Fixed-ear type that will favor higher plant populations
- Keep this hybrid in the northern region.
- This hybrid will thrive in your better soils.

21N78 RR2RELATIVE
MATURITY**78**
DAY

- Great root strength and extremely responsive to high-yielding environments and irrigation
- Dent-by-dent hybrid with fast drydown
- Plant at high populations for positive yield response.
- Very solid late-season plant health for an early hybrid
- Most dependable hybrid in its maturity

77P79 VT2PRORELATIVE
MATURITY**79**
DAY

- Strong adaptability to northern soils
- Best 79-day cross with corn borer protection that we have ever tested
- This genetic package is sure to perform on your tough, variable and ideal soils.
- The "Goldilocks of Stature" - not too tall, not too short. Just right!

70D80 VT2PRORELATIVE
MATURITY**80**
DAY

- True game-changing yield performance for an 80-day hybrid
- Attractive late-season appearance
- Girthy ear with a loose, open husk
- Performs well on better ground so keep off tough acres

71V81 VT2PRORELATIVE
MATURITY**81**
DAY

- Good girth and Goss's Wilt rating
- Ideal fit on tough and variable soils
- Great stalk and roots for an extended harvest window
- Very early to flower and reach black layer
- Versatile placement makes this cross a go-anywhere hybrid.

74L81 VT2PRORELATIVE
MATURITY**81**
DAY

- Excellent early dent option with above average test weight
- Semi-flex ear with good high-density tolerance
- Widely adapted with solid stalk and roots
- Early flowering with flared husks for dependable drydown
- Avoid drought-prone soils.

NEW

78A82 VT2PRO**VTDoublePRO**
RIB COMPLETERELATIVE
MATURITY**82**

DAY

- Excellent early vigor with very strong stalk and root strength
- Expect some very good yields.
- A lot of girth for an early cross
- Excellent late-season plant health

21D82 RR2**Roundup
Ready**
CORN 2RELATIVE
MATURITY**82**

DAY

- Very early flowering hybrid that performs best as a full-season cross
- Late-season standability extends the harvest window
- Be careful when loading trucks because this baby is heavy!

22T83 RR2**Roundup
Ready**
CORN 2RELATIVE
MATURITY**83**

DAY

- This Roundup Ready® cross can handle all soil types extremely well.
- The consistent ear size maintains yields up and down the rows.
- Greensnap stands no chance with this hybrid's stalk and root strength.

73S84 VT2PRO**VTDoublePRO**
RIB COMPLETERELATIVE
MATURITY**84**

DAY

- Excellent agronomics and a good choice for variable soils
- This hybrid displays strong emergence and seedling vigor.
- A medium-statured plant with excellent stalk and root strength
- Very consistent ear development at various planting populations
- Impressive disease tolerance including Northern Leaf Blight and Goss's Wilt

75G85 VT2PRO**VTDoublePRO**
RIB COMPLETERELATIVE
MATURITY**85**

DAY

- Impressive performance across high and low yield environments
- Very adaptable hybrid with proven ability to move both south and west
- Flowers early and flares husk to enhance drydown
- Exhibits very good stay-green and intactness

13A85 CONV.
23A85 GTA**Agrisure**
ArtesianGTARELATIVE
MATURITY**85**

DAY

- Above average stalk and root quality for harvest flexibility
- Medium-tall hybrid that is widely adapted east to west
- Late season stay-green makes for a great-looking hybrid
- Handles drought stress well
- Keep off your salty soils

25K85 RR2RELATIVE
MATURITY**85**
DAY

- Exceptional stalk and root strength for maturity
- Excellent stay-green and intactness
- Outstanding top-end yield potential and fast drydown

76Q86 VT2PRORELATIVE
MATURITY**86**
DAY

- Very good stalk and root package
- Good yield performance across tough environments
- Strong Goss's Wilt rating
- This hybrid expresses a lot of girth.

16S86 CONV.RELATIVE
MATURITY**86**
DAY

- Our earliest conventional offering with impressive top-end yield potential
- We love this medium-statured hybrid with very good stalks and roots.
- We hate to use the term "race horse" but this one is.

74Z87 VT2PRORELATIVE
MATURITY**87**
DAY

- Good for early planting and reduced tillage environments
- Excellent top-end yield for ideal and variable soils
- Extremely girthy ear and a solid stalk for highly-managed acres

33B88 AARELATIVE
MATURITY**88**
DAY

- A consistently high-yielding hybrid with excellent agronomics
- Widely adapted from east to west
- Very good stalk, root and plant health
- Good early dual-purpose potential

DUAL
PURPOSE
SILAGE**74J89** VT2PRORELATIVE
MATURITY**89**
DAY

- Impressive early vigor for the north
- Strong yield performance across all environments
- Upright leaf structure fits well in narrow row
- Good candidate for tough acres
- Finishes like an 87-day cross

DUAL
PURPOSE
SILAGE

13D91 CONV.RELATIVE
MATURITY**89**

DAY

- Tremendous drought tolerance makes it a great option for “desert” fields
- Outstanding stalk and roots
- Very attractive hybrid with good fall appearance
- Steady yielder across all environments

73K90 VT2PRO
/ASR**VTDoublePRO**
RIB COMPLETERELATIVE
MATURITY**90**

DAY

- Strong emergence and excellent seedling vigor that can handle cold soils
- Excellent top-end yield performance when kept in-zone and north
- Girthy, flex ear style suited to all planting populations
- Avoid drought-prone soils

77H90 VT2PRO
/ASR**VTDoublePRO**
RIB COMPLETERELATIVE
MATURITY**90**

DAY

- Very good early vigor; well suited to early planting
- Medium statured hybrid; 6” shorter than 72A91
- A good performer under lower populations with strong ear flex
- Average Goss’s Wilt rating, so keep off those hot Goss’s spots.
- Strong agronomics with solid stalk and root ratings.

NEW**72A91** VT2PRO**VTDoublePRO**
RIB COMPLETERELATIVE
MATURITY**91**

DAY

- Showcases outstanding yield potential with a very good disease package
- Good ear flex and drydown with open husks
- Very good drought, greensnap and Goss’s Wilt tolerance

16S92 CONV.
26S92 RR2
76S92 VT2PRO**Roundup Ready 2**
CORN **VTDoublePRO**
RIB COMPLETERELATIVE
MATURITY**92**

DAY

- Very good early season vigor with good stress tolerance
- Widely adapted across varying environments
- Fantastic yielding product with fast drydown
- Will perform best in its maturity zone, but has good southern movement

DUAL
PURPOSE
SILAGE**74B92** VT2PRO
/ASR**VTDoublePRO**
RIB COMPLETERELATIVE
MATURITY**92**

DAY

- Exceptional yield potential with strong agronomics and late season plant health
- Very good stalks and roots with above average stay-green and intactness
- Semi-flex ear style, with deep kernels and good grain quality
- Excellent Goss’s Wilt and Northern Leaf Blight tolerance
- Will handle high planting populations

NEW

88K93 SMARTSTAX**SmartStax**
RIB COMPLETERELATIVE
MATURITY**93**
DAY

- Earliest SmartStax® option for your corn-on-corn acres
- High yield potential in low-yield environments
- Good test weight on large girthy ear with excellent tip fill
- Outstanding early vigor for reduced tillage situations
- Excellent choice for your silage acres

DUAL
PURPOSE
SILAGE**72Q94** VT2PRO**VTDoublePRO**
RIB COMPLETERELATIVE
MATURITY**94**
DAY

- Taller plant with excellent agronomics and yield
- Consistent performance over the entire field
- Dual purpose hybrid with excellent silage potential
- Flares husk with fast drydown for maturity
- Impressive stalk and roots, with late season intactness and stay-green

DUAL
PURPOSE
SILAGE**78G95** VT2PRO**VTDoublePRO**
RIB COMPLETERELATIVE
MATURITY**95**
DAY

- Top performance across a wide range of environments
- Produces long, flex ears with high kernel row counts
- Exhibits very good stay-green and late-season intactness
- Nicknamed the "screamer" because of its high yield potential

DUAL
PURPOSE
SILAGE**19L95** CONV.RELATIVE
MATURITY**95**
DAY

- This cross is a perfect fit with growers using a variable rate prescription.
- High-yielding conventional hybrid for the mid 90-day grower
- Throws a big, flexed, deep-kerneled ear

DUAL
PURPOSE
SILAGE**2LF95** RR2/SILAGE**Roundup
Ready²**
CORNRELATIVE
MATURITY**95**
DAY

- Silage only!
- Highly digestible starch makeup in the kernel - the geese will starve for lack of 'leftover' kernels.
- Solid agronomics. A go-anywhere type hybrid.
- Set your silage harvest at three-quarter inch cut for a better quality.

SILAGE
HYBRID**71R95** DROUGHTGARD
/VT2PRO**DroughtGard**
HYBRIDS
VTDoublePRO
RIB COMPLETERELATIVE
MATURITY**95**
DAY

- Good option for tough-to-variable acres
- Medium-tall hybrid with higher ear placement
- Very good agronomics with solid late green intactness
- Flex-ear that works well in variable rate populations

NEW

76Y96 VT2PRO /ASR**VTDoublePRO**
RIB COMPLETERELATIVE
MATURITY**96**

DAY

- Excellent top-end yield potential across all soil types
- Shows very strong emergence
- Very good drought tolerance for tougher acres
- Excellent early vigor for early planting and reduced tillage acres

20Z96 RR2**Roundup
Ready²**
CORNRELATIVE
MATURITY**96**

DAY

- Handles most soil types extremely well
- Stands out against most hybrids on high pH, high salt soils
- Very good drought hybrid
- Excellent late-season intactness

78P98 VT2PRO**VTDoublePRO**
RIB COMPLETE
Trecepta
RIB COMPLETERELATIVE
MATURITY**98**

DAY

- Exceptional performance in our introductory Trecepta® trait package
- Large girthy ear with deep kernels
- Robust hybrid with very good Goss's Wilt tolerance
- Late flowering, fast drying hybrid for both grain and silage markets

DUAL
PURPOSE
SILAGE**78B98** VT2PRO**VTDoublePRO**
RIB COMPLETERELATIVE
MATURITY**98**

DAY

- Shorter plant structure with very good standability
- Strong stress tolerance
- Early flowering for maturity with top-end yield potential

DUAL
PURPOSE
SILAGE**85X98** SMARTSTAX**SmartStax**
RIB COMPLETERELATIVE
MATURITY**98**

DAY

- Excellent top-end yield potential with wide area of adaptation
- Strong disease package with late season intactness and stay-green
- Excellent SmartStax® conversion with season-long eye appeal
- Performs across multiple environments with good southern movement
- Long, girthy semi-flex ear style adapted to moderate and high populations

DUAL
PURPOSE
SILAGE**75T99** VT2PRO /ASR**VTDoublePRO**
RIB COMPLETERELATIVE
MATURITY**99**

DAY

- Very strong yield potential over a wide geography from east to west
- Semi-flex ear type with good stress tolerance
- Good foliar health and late-season plant appearance
- This hybrid's ability to flex makes it a perfect option for variable rates.

DUAL
PURPOSE
SILAGE

14M00 CONV.RELATIVE
MATURITY
100
DAY

- This 100-day conventional brings with it dominant yield performance across all environments.
- Flex ear style adapts well to moderate populations
- Medium-statured hybrid with very good standability
- This cross shows a strong response to fungicide applications.
- Has 24-around potential - often will be 20-to-22 around with a very deep kernel set

DUAL
PURPOSE
SILAGE**72D00** DROUGHTGARD
/VT2PRODroughtGard[®]
HYBRIDS
VTDoublePRO[®]
RIB COMPLETERELATIVE
MATURITY
100
DAY

- Extremely defensive with an attractive fall appearance
- Stable performance across a wide range of environments
- This hybrid produces consistent and girthy ears.
- Solid year-over-year performance

73P01 VT2PRO
/ASRVTDoublePRO[®]
RIB COMPLETERELATIVE
MATURITY
101
DAY

- Our leading 100-day option with tremendous girth, earning it the nickname "girthy pig!"
- Flex ear style adapts well to moderate populations
- Fast late-season dry-down
- Impressive yield stability across all yield environments

DUAL
PURPOSE
SILAGE**2LF01** RR2/SILAGERoundup
Ready²
CORNRELATIVE
MATURITY
101
DAY

- Silage only!
- Robust, leafy, floury hybrid
- 100% floury kernels for a boost in starch digestibility
- Offers big tons to maximize your silage acres
- Keep this one at 28,000 population for best performance

SILAGE
HYBRID**78B03** V2TPRO
88B03 SMARTSTAXVTDoublePRO[®] SmartStax[®]
RIB COMPLETE RIB COMPLETERELATIVE
MATURITY
103
DAY

- Widely adapted hybrid with very good Goss's Wilt tolerance and low greensnap risk
- Excellent early vigor for minimum tillage and early planting
- Very good test weight with strong stalks and roots

DUAL
PURPOSE
SILAGE**74H04** VT2PROVTDoublePRO[®]
RIB COMPLETERELATIVE
MATURITY
104
DAY

- Strong stalks and roots with good greensnap tolerance
- Very good top-end yielding hybrid across years of testing
- Impressive disease tolerance including Goss's Wilt, NLB and GLS
- Flex ear style with excellent girth
- Widely adapted across regions with good southern movement

DUAL
PURPOSE

21X007 RR2X

 ROUNDUP READY 2
X TEND
 SOYBEANS
RELATIVE
MATURITY**00.7**

- Great fit for northern acres wanting a Roundup Ready 2 Xtend® bean
- Maintains its height across all environments
- Nice width for all row spacings

18X008N RR2X

 ROUNDUP READY 2
X TEND
 SOYBEANS
RELATIVE
MATURITY**00.8**

- Consistent performance year-over-year has kept this bean in our lineup.
- Excellent IDC for the toughest soils
- SCN, BSR and Phytophthora don't stand a chance with this bean.

23EN009 ENLIST E3

 Enlist E3
 SOYBEANS
RELATIVE
MATURITY**00.9**

- Attractive plant type with a lot of branching
- Will work in all row spacings
- SCN and Rps1c plus outstanding IDC tolerance

NEW**23XF009** XTENDFLEX

X TENDFLEX
 SOYBEANS
RELATIVE
MATURITY**00.9**

- Great overall disease package including IDC tolerance
- Superior lodging resistance with average plant height
- Does not have SCN protection so place carefully.

NEW**22XF009** XTENDFLEX

X TENDFLEX
 SOYBEANS
RELATIVE
MATURITY**00.9**

- Great branching variety that is adapted to all row widths
- Medium height with good lodging resistance
- Adaptable to move from east to west and can perform well south

23XF01 XTENDFLEX

X TENDFLEX
 SOYBEANS
RELATIVE
MATURITY**0.1**

- Next generation yields for early XtendFlex®
- Does not have SCN protection
- Solid IDC score with a Rps1k Phytophthora gene
- Will be widely adapted for years to come

NEW

19X03N RR2XRELATIVE
MATURITY**0.3**

- Great genetics with great yields
- Excellent IDC scores makes this a “go-anywhere” type of bean.
- Stands tall with lateral branches that are loaded with pods

22XF03 XTENDFLEXRELATIVE
MATURITY**0.3**

- Works well in heavy soils
- Excellent IDC tolerance and has shown good SWM resistance
- Place carefully as it does not carry cyst nematode protection
- A tall, branching bean that will fill all rows quickly

17X04N RR2XRELATIVE
MATURITY**0.4**

- A cornerstone in our lineup that’s tough to beat – it’s still topping our yield trials 7 years later
- Rps3a, IDC, and SCN in one package
- Proven to offer very flexible placement across all soil types

19EN04 ENLIST E3RELATIVE
MATURITY**0.4**

- Maintains height even in tough conditions
- A workhorse for our lineup that is still here for a reason
- Outstanding yield year-over-year in challenging IDC environments

20X05 RR2XRELATIVE
MATURITY**0.5**

- Canopies early with nice width over each row
- Dependable bean with versatile placement
- Excellent IDC packed with yield
- Limited cyst protection

22XF06 XTENDFLEXRELATIVE
MATURITY**0.6**

- Medium-tall height, semi-bushy plant type
- Carries both SCN and Rps1c genes to anchor a strong disease package
- Outstanding yields in 2020 and 2021

18X07N RR2XRELATIVE
MATURITY**0.7**

- Top-end IDC score in the lineup
- Great agronomic package allows for flexible placement
- Heavily podded plant with high yield potential

21XF07 XTENDFLEXRELATIVE
MATURITY**0.7**

- Equipped with strong SCN and BRS resistance
- Average IDC scores in our trials so watch placement
- Medium height with great standability makes this line perfect for less than 30" row spacing.

23XF09 XTENDFLEXRELATIVE
MATURITY**0.9**

- Attractive plant type with a lot of branching
- Solid disease package: SCN, Rps1c and IDC
- Caution on fields with a white mold history

NEW**23EN10 ENLIST E3**RELATIVE
MATURITY**1.0**

- Outstanding IDC tolerance with Rps1k
- Carries good height
- Keep off Sclerotinia White Mold-prone fields

NEW**22XF10 XTENDFLEX**RELATIVE
MATURITY**1.0**

- Above-average height with good lodging resistance
- SCN, RpsH3a with good field tolerance to handle most growing conditions
- Will handle all but the toughest IDC soils

22XF12 XTENDFLEXRELATIVE
MATURITY**1.2**

- Medium plant height with great standability
- Above average SWM tolerance
- Very good IDC rating helps this variety be broadly adapted
- Cornerstone of our early group 1 XtendFlex® lineup

NEW

SOYBEAN VARIETIES

23XF13 XTENDFLEX

- Tall line that will handle most soil types
- Solid disease package
- Widely adapted for our southern footprint

ENLIST® WEED CONTROL SYSTEM—
GET CONTROL OF TOUGH WEEDS

Following burndown, Enlist Duo® and Enlist One® herbicides with Colex-D® technology are the only herbicides containing 2,4-D that are labeled for preemergence and postemergence use with Enlist E3® soybeans.

2,4-D choline | Glyphosate | Glufosinate

Enlist Duo®
COLEX-D® technology
HERBICIDE

- Convenient proprietary blend of 2,4-D choline and glyphosate
- The two modes of action work together to deliver control of yield-robbing weeds and help prevent resistance

Enlist One®
COLEX-D® technology
HERBICIDE

- Straight goods 2,4-D choline with additional tank-mix flexibility
- Provides additional tank-mix flexibility with Durango® DMA® herbicide, Liberty® herbicide and other qualified tank-mix products, allowing for a customized weed control program to fit each farm

On-Target Application

- 90% less drift than traditional 2,4-D
- 96% less volatile than 2,4-D ester

Bayer is a member of Excellence Through Stewardship® (ETS). Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. It is a violation of federal and state law to use any pesticide product other than in accordance with its labeling. NOT ALL formulations of dicamba or glyphosate are approved for in-crop use with Roundup Ready 2 Xtend® soybeans. NOT ALL formulations of dicamba, glyphosate or glufosinate are approved for in-crop use with products with XtendFlex® Technology. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED FOR SUCH USES AND APPROVED FOR SUCH USE IN THE STATE OF APPLICATION. Contact the U.S. EPA and your state pesticide regulatory agency with any questions about the approval status of dicamba herbicide products for in-crop use with products with XtendFlex® Technology.

B.t. products may not yet be registered in all states. Check with your seed brand representative for the registration status in your state.

IMPORTANT IRM INFORMATION: RIB Complete® corn blend products do not require the planting of a structured refuge except in the Cotton-Growing Area where corn earworm is a significant pest. See the IRM/Grower Guide for additional information. Always read and follow IRM requirements.

Roundup Ready® 2 Technology contains genes that confer tolerance to glyphosate. Roundup Ready 2 Xtend® soybeans contain genes that confer tolerance to glyphosate and dicamba. Products with XtendFlex® Technology contains genes that confer tolerance to glyphosate, glufosinate and dicamba. Glyphosate will kill crops that are not tolerant to glyphosate. Dicamba will kill crops that are not tolerant to dicamba. Glufosinate will kill crops that are not tolerant to glufosinate. Contact your seed brand dealer or refer to the Bayer Technology Use Guide for recommended weed control programs.

Contact your Bayer retailer, refer to the Bayer Technology Use Guide, or call the technical support line at 1-844-RRXTEND for recommended Roundup Ready® Xtend Crop System weed control programs.

Insect control technology provided by Vip3A is utilized under license from Syngenta Crop Protection AG. Herculex® is a registered trademark of Dow AgroSciences LLC. Agrisure Viptera® is a registered trademark of a Syngenta group company. LibertyLink® and the Water Droplet Design® is a trademark of BASF Corporation. Respect the Refuge and Corn Design® and Respect the Refuge® are registered trademarks of National Corn Growers Association. DroughtGard®, RIB Complete®, Roundup Ready 2 Technology and Design™, Roundup Ready 2 Xtend®, Roundup Ready 2 Yield®, Roundup Ready®, SmartStax®, Trecepta®, VT Double PRO® and XtendFlex® are trademarks of Bayer Group.

Seed Privacy Statement - Seed containing a patented trait can only be used to plant a single commercial crop. It is unlawful to save and replant seed from that crop. Examples of seed containing a patented trait include but are not limited to Roundup Ready 2 Yield® soybeans, Roundup Ready 2 Xtend® soybeans and XtendFlex® soybeans. Additional information and limitations on the use of these products are provided in the Technology Stewardship Agreement and the Bayer Technology Use Guide: tug.bayer.com. U.S. patents for Bayer technologies can be found at the following webpage: cs.bayerpatents.bayer.com

Important: Always read and follow label and bag tag instructions; only those labeled as tolerant to glufosinate may be sprayed with glufosinate ammonium-based herbicides.

Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, non-selective, post-emergent weed control of Liberty® herbicide for optimum yield and excellent weed control. LibertyLink®, Liberty® and the Water Droplet logo are registered trademarks of BASF. Corn trait technology incorporated into these seeds is commercialized under license from Syngenta Seeds, LLC. Herculex® Technology incorporated into these seeds is commercialized under license from Corteva Agriscience LLC. HERCULEX® and the HERCULEX Shield are trademarks of Corteva Agriscience LLC.

Corteva Agriscience is a member of Excellence Through Stewardship® (ETS). Corteva Agriscience products are commercialized in accordance with ETS Product Launch Stewardship Guidance and in compliance with the Corteva Agriscience policies regarding stewardship of those products. In line with these guidelines, our product launch process for responsible launches of new products includes a longstanding process to evaluate export market information, value chain consultations, and regulatory functionality. Growers and end users must take all steps within their control to follow appropriate stewardship requirements and confirm their buyer's acceptance of the grain or other material being purchased. For more detailed information on the status of a trait or stack, please visit www.biotechstatus.com.

Seeds containing the Enlist, Herculex and PowerCore traits are protected under one or more U.S. patents which can be found at www.traitstewardship.com. The purchase of these seed traits include a limited license to produce a single crop in the United States. The use of seed from such a crop or the progeny thereof for propagation or seed multiplication for production or development of a hybrid or different variety of seed is strictly prohibited. You acknowledge and agree to be bound by the terms and conditions of the following documents in effect at the time of planting of this seed: (i) the Corteva Agriscience Technology Use Agreement and (ii) the Product Use Guide, Corteva Agriscience grants to the Grower the limited license to use its technology to produce only a single commercial crop in the United States under the terms and conditions set forth in the Technology Use Agreement in effect at the time of planting of this seed. Agrisure® Above and Agrisure Artesian® are trademarks of a Syngenta Group Company.

Always read and follow herbicide label directions prior to use: Enlist® products contain the Enlist trait that provides crop safety for use of labeled over-the-top applications of glyphosate, glufosinate and 2,4-D herbicides featuring Colex-D® technology when applied according to label directions. Following burndown, the only 2,4-D containing herbicide products that may be used with Enlist® crops are products that feature Colex-D technology and are expressly labeled for use on Enlist crops. 2,4-D products that do not contain Colex-D technology are not authorized for use in conjunction with Enlist products.

The transgenic soybean event in Enlist E3® soybeans is jointly developed and owned by Corteva Agriscience and M.S. Technologies, LLC. The Enlist, Enlist E3, the Enlist E3 logo, and Colex-D are trademarks of Corteva Agriscience and its affiliated companies. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

Enlist E3® soybean seeds containing the Enlist® trait can only be used to plant a single commercial crop. It is unlawful to save and replant Enlist E3® soybeans. Additional information and limitations on the use of these products are provided in the Corteva Agriscience Technology Use Agreement and Enlist® Soybean Product Use Guide. U.S. patents for Dow AgroSciences technologies can be found at the following webpage: www.corteva.us/Resources/trait-stewardship.html

Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed as set forth in the technology/stewardship agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with the most recent stewardship requirements.

CONVENTIONAL SOYBEANS

OUR CONVENTIONAL SOYBEAN CONTRACTS ARE ANYTHING BUT CONVENTIONAL.

Private and public trials prove Hana and Marula
yield similarly to traited soybeans.

Find out how our closed-loop contract can work on your farm.

HANA CONV.

RELATIVE
MATURITY

00.9

- Yields are comparable to 19EN008 and 2002E
- Best suited for 15" or narrower row spacing
- Works best in higher populations

MARULA CONV.

RELATIVE
MATURITY

0.7

- Yields around 3 bushels under 2106E
- Best suited for 15" or narrower row spacing
- Works best in higher populations

CONTRACT GUARANTEES:

- "Take-All" contract, meaning every bushel produced will be taken after minimal quality standards are met:
 - No GMOs
 - No corn
 - No staining
- Great premiums over cash prices
- Soybeans will be picked up at grower's farm. (Must have load-out capability)

SEED TREATMENT

PETERSON SELECT SEED TREATMENT THE BEST SEED DESERVES THE BEST PROTECTION.

IN DEVELOPING OUR PETERSON SELECT SEED TREATMENTS, WE ASKED OURSELVES WHAT WOULD STOP US FROM CHECKING ALL THE BOXES FOR DISEASE AND INSECT PROTECTION.

IT TURNS OUT, NOTHING COULD STOP US!

SOYBEANS

FUNGICIDE

- 4 active ingredients
- Protection from top seedling diseases
- Custom formulation to fit our regional farms
- Includes Polymer for improved coverage and flowability
- Compatible with inoculant to round out your protection offering
- Red color
- Low use rate at 2.45 fl oz/cwt

- ✓ PHYTOPHTHORA
- ✓ RHIZOCTONIA
- ✓ PYTHIUM
- ✓ FUSARIUM
- ✓ SEED-BORNE DISEASE

FUNGICIDE & INSECTICIDE

- Custom formulation of Peterson Select fungicide PLUS insecticide
- Protects against troublesome seedling diseases and insects
- Low use rate at 4.10 fl oz/cwt

WHEAT

INTRODUCING BUNS, OUR FIRST PROPRIETARY WHEAT VARIETY.

After topping private and public trials for three years straight, we're proud to bring Buns to your farm in 2023.

BUNS

HARD RED SPRING WHEAT
MEDIUM MATURITY

Days to Heading

85

- Outstanding yield performance in private and University trials for three years straight
- Excellent lodging resistance
- Shows tremendous tolerance to Bacterial Leaf Streak compared to industry standards
- Considered average in protein content with medium maturity
- Optimum Seeding Rate: 1.4 million/acre

PROMISE+ REWARDS

**YOUR EARLY ORDER.
OUR THANKS.
IT'S THAT SIMPLE.**

When you commit to order seed before December 15, we'll thank you for putting your trust in us with Promise+ Points redeemable for valuable merchandise.

EASY AS 1-2-3:

- 1** Sign an early order commitment by **December 15, 2022**.
- 2** Pick your payment method:
 - 0% financing with your local bank, plus a financing rebate
 - Cash, including a cash discount based on payment date
 - John Deere Financing
- 3** Bask in our gratitude! Earn Promise+ points based on your commitment level. Select your reward with your dealer before **January 15, 2023**.

BONUS POINTS + CARRY-OVER

Loyalty Bonus: earn an extra Promise+ point when you commit at level 3 or higher AND plant 100% of your corn and soybean acres with us.

Tier Jumper: earn one point for each tier you jump (maximum of 5 points) over your historic-high level.

1 Year Point Carry-Over: carry point(s) forward one year to stack points and earn a larger reward. Requires equal or greater seed purchase year-over-year.

View the **Promise+ Points** level your order will earn you. Use your phone's camera to scan the QR code.

ORDER DEADLINE	FINANCING REBATE
